

Wheatley Group

Furniture Installation, Glasgow

Heartwood installed workstations, task chairs, meeting booths, storage units, and modular seating from a variety of manufacturers in Wheatley House, Glasgow including the new to market Frovi Bamboo Shelving units, which required a delicate and systematic approach to installation.

The installation of furniture at Wheatley Group was threatened by severe supply chain issues which affected the entire furniture industry in August of 2021, meaning products were struggling to arrive on time from manufacturers, however our management systems meant that we were able to flex resource and co-ordinate deliveries to ensure that the project stayed on-time and on-budget despite the challenges faced.

We have since been recontracted by the service provider for top-up works, amendments and churn work within the Wheatley Group estate.

Date Of Works

August 2021

Client Feedback

“August was a trying time for all businesses in the furniture industry, but the team at Heartwood ensured we stayed on track with delivering this project on-time for our client.”
